**Date:05 -11-2009**

**Read the following:-**

- 1) From Engineer-in-Chief (Irrigation) Hyderabad Letter.No.ENC (I)/ DCE.IV /OT7/SO.VI/Misc/2004, dated 4.2.2008
- 2) From Engineer-in-Chief (Irrigation) Hyderabad Letter.No.ENC (I)/ DCE.IV /OT7/SO.IV/Misc/2004, dated 29-7-2009.

**ORDER:-**

In the circumstances reported by the Engineer-in-Chief (Irrigation) in the references first and second read above, Government after careful examination hereby accord permission to M/s Deccan Fine Chemicals (India) Private Limited, to draw 981 K.L. of water per day (0.216 MGD) through infiltration wells from Thandava River for their Agro-chemicals manufacturing plant near Kesavaram (V) Payakaraopeta (M) Visakhapatnam District, subject to usual terms and conditions laid down in a similar case vide G.O.Ms.No.1337, Irrigation & CAD dated 12.9.2005 and also obtaining of prior permission from District Collector, Visakhapatnam and A.P.Pollution Control Board and subject to the following conditions:-

- (i) Government will not give any guarantee for availability of Ground Water (sub- surface water) throughout the year in the Thandava River.
- (ii) This permission granted for an initial period of 10 (ten) years and can be renewed for further a period, subject to availability of sub-surface water in Thandava River six months before expiry of the permission.
- (iii) The Industry shall pay water charges / Royalty charges at the rate of Rs.1.50 per 1000 gallons as per item 1(a) of G.O.Ms.No.39, I&CAD (PW:Reforms) Department dated 2.4.2002 or any other rate as fixed by Government from time to time.
- (iv) The Industry is permitted to draw sub-surface water for a quantum 0.216 MGD for consumptive use at an average rate of 981 K.L. of water per day.
- (v) The Industry shall pay advance as informed by the ENC(Irrigation) towards water charges before commencement of the year i.e., from the date of extraction of Ground water.
- (vi) If the company draws less quantum of water than that of permitted quantum per year, the water charges fixed above will be charged for the whole permitted quantum per year, as the un-utilized quantum can not be allocated to other Agency.
- (vii) The Company should not sell or divert the Ground water from the Thandava River bed to any other company / firm or water should not be used for any other purposes of the company and the colony.

- (viii) The extract of Ground water in the Thandava River should not interfere with the existing Ground Water, extraction structures for Visakhapatnam or other towns water supply.
- (ix) The Company shall not have any right to interfere with the existing or proposed drawls of Ground water as may be permitted by the Government in future near Kesavaram Village in the River bed.
- (x) Government will have every right for taking up necessary regulatory measures in future, if the Ground water regime in the area is disturbed.
- (xi) The Company shall draw Ground water subject to the quantity herein fixed or such lesser quantity as the Executive Engineer, Irrigation Division, Visakhapatnam fixes from time to time, after obtaining the concurrence of the Deputy Director, Ground Water Department, Visakhapatnam in the event of disturbance of the Ground water regime in the area.
- (xii) The Company shall carry out regular monitoring of Ground water levels and chemical quality of Ground water in and around the Zone to be tapped by establishing observation wells to monitor water levels once a month (last week of the month) and water quality twice a year i.e., pre and post-monsoon periods.
- (xiii) The effluents must be treated properly and shall be free from all toxic materials color, odour and turbidity.
- (xiv) The effluents should not be let out on the surface or in the Ground water bodies and it should not be the cause of pollution.
- (xv) Half yearly reports on the above items of (xii), (xiii) and (xiv) shall be furnished to the Exe.Engineer, Irrigation Division, Visakhapatnam Deputy Director Ground Water Dept., Visakhapatnam Superintending Engineer Irrigation Circle, Visakhapatnam Chief Engineer Minor Irrigation, Hyderabad and Director Ground Water Department Hyderabad.
- (xvi) In the opinion of the Government at any time in future, if it is felt that the extraction of Ground Water by the Company is against the public interest the Govt. reserves the right to initiate action to regulate the rate of pumping or to stop the company to utilize the Ground Water, during emergencies etc.
- (xvii) The Company shall install and maintain standard ISI Mark, measuring devices / water meters at the out-let of pump house and also at different points as directed by the Exe.Engineer, Irrgn.dept Visakhapatnam at the cost of the company and the Exe.Engineer, Irrgn.Dept., Visakhapatnam and the Company has to protect the measuring devices from damages and tampering etc., as the quantity of Ground water extracted and measured at the outlet of pump house will be the only authentic quantity, based on which water charges will be collected. The Exe.Engineer, Irrigation Dept., Visakhapatnam or his authorized representatives shall have access to inspect and take readings of water meters whenever required.

- (xviii) The Company shall maintain and keep in the company premises, the log books of each tube well pump and books of Accounts, where in it shall be entered the schedule of number of hours of pumping, rate of pumping and number of gallons of water drawn each day, measured at the outlet of the pump house, for the use of company, through pipes or pumps or otherwise and to allow such books to be inspected and the entries thereon to be copied by any officer of the irrigation & CAD dept., and Ground Water Department so deputed.
- (xix) The Company shall not draw more than 0.216 MGD of Ground Water per day herein permitted. In case, if it is found that there are excess drawls on any day (though the total quantum drawn in a year is within the permitted quantum per year ), a penalty of thrice the normal rate will be levied for the extra quantum drawn per day.
- (xx) The Officers of the I&CAD Dept., Ground Water Dept., and Revenue Dept, must be allowed to inspect the production wells, observations wells, pumping main, company and surrounding premises and the data / record of pumping from each production well kept at the company premises.
- (xxi) The Company shall follow all the conditions as imposed in the schedules A&B in respect of Air and Water (prevention and control of Pollution) in the consent orders for establishment and operations of plant vide No.18 L, dt.13.5.2002 and 2059 dated 13.5.2002 of APPCB, Hyderabad.
- (xxii) In case any damage occur to the assets of the company due to natural calamities / disasters , the Govt., is no way responsible and the company has to make it good, at their cost.
- (xxiii) The Company shall deposit the amount as intimated by the ENC(Irrigation) towards security money deposit or caution money deposit, at their cost.
- (xxiv) No cross bunding shall be done across Tandava River course by the company. The flood banks / berms of Tandava River should not be damaged on account of installation of Tube wells, pump sets pump house etc. Any damage occurred on account of operation will have to be made good at the cost of the company.
- (xxv) The Company shall furnish the monthly statement of quantity of water drawn indicating the daily drawls from each tube well to the Exe.Engineer, Irrign., divn., Visakhapatnam regularly by 5<sup>th</sup> of every month for the drawls of previous month. At the end of 12<sup>th</sup> month (each year) along with the statement, the company has to enclose a DD for the sum equivalent to the water charges for the next one year, at the prevailing rate for the water proposed to be drawn and the rate of pumping herein permitted or revised as the case may be.
- (xxvi) The Company shall indemnify the Government against all actions, claims and demands that may be brought or claimed, against the Government by reason if anything done by the Company, by the exercise of the rights hereby granted.
- (xxvii) The Company has to enter into an agreement on a non-judicial paper of worth Rs.100/- duly stipulating all the above conditions, with the EE, ID, Visakhapatnam along with the following documents.:-

- a) Proof for having acquired the building, plant, water supply pipeline and tube wells / infiltration wells etc., of the erstwhile shut down unit of M/s Deccan Fine Chemicals located at Kesavaram Village, Payakaraopeta, Visakhapatnam District.
- b) A demand draft for Rs.2,00,000/- towards security deposit / caution deposit in favour of PAO Works & Projects concerned may be submitted to the concerned SE/EE as informed.

xxviii) The Company should abide by all the above conditions and violation of any of the said conditions shall entail cancellation of water lifting permission, imposition of penalty and forfeiture of security deposit.

2. The Engineer-in-Chief (Irrigation) shall take necessary action in the matter.
